

Cambria Community Services District

Cambria Water Quality Control Plant Wastewater

All weather readings are taken at the Wastewater Treatment Plant as part of the normal plant operations. This information helps us to manage our Biosolids and Effluent Disposal. It is then passed on to local TV, News agencies, and the County of San Luis Obispo.

The dates in the following report show only the days that it rained. The daily totals are read at 8:00am each morning. No temperatures highs or lows were logged before 1997. A disk of this data in MS Access 2000 is available upon request.

Allot of this weather information is on the www.cambriawqcp.org (Cambria Water Quality Control Plant) website.
